

Jamie Stern's Baby Gator boasts a unique embossing pattern that meticulously recreates the natural variations of an alligator hide. Produced on sides (half hides), Baby Gator is embossed with maximum pressure, dwell and heat to ensure that the leather's precise pattern is consistent and even throughout. After the print is applied, the sides are then finished with a bright metallic topcoat. This vibrant semi-aniline finish not only accentuates the leather's highly detailed pattern, but also protects it from scratching, staining and fading in sunlight. Produced exclusively in our New York finishing plant, Baby Gator makes for an unforgettable, eye-catching upholstery leather in any space.
