

Jamie Stern's Dream Weave features a precisely embossed pattern which beautifully emulates a tight woven leather without sacrificing any durability. Produced on sides (half hides), Dream Weave is embossed with maximum pressure, dwell and heat to ensure that the leather's iconic pattern is consistent and even throughout. After this print is applied, the sides are then finished with a protective semi-aniline topcoat before receiving a second hand-tipped layer of pigment. This artisanal finishing process adds a sophisticated depth and rich two-tone coloration, making for a truly unforgettable upholstery leather.
