

Jamie Stern's Dune is a beautiful embossed leather that features a naturalistic pattern inspired by the organic formations left behind as the wind ripples through a shoreline. Produced on sides (half hides), Dune is embossed with maximum pressure, dwell and heat to ensure that the leather's iconic pattern is consistent and even throughout. After this print is applied, the sides are then finished with a protective semi-aniline topcoat before receiving a second hand-tipped layer of pigment. This artisanal finishing process adds a subtle two-tone coloration that accentuates the embossed pattern, making for a truly unforgettable upholstery leather.
