

The Jade is a thoroughly modern sofa featuring a sculpted body, a partial curved back and a rounded chaise end. The piece's unique design is rooted in the rejection of rigid angles and sharp corners, instead opting for a continuous, free-flowing look which is equal parts playful and elegant. Ideally suited for any project seeking a statement piece without sacrificing comfort, the Jade Sofa effortlessly bridges the gap between traditional support and contemporary style.

This piece is shown upholstered in Jasmine Velvet, colorway Remy.

Available in custom sizes.
