## LEATHER

### NUGGET

Nugget is a classic upholstery leather featuring a naturalistic medium grain and a highly durable protective semi-aniline finish. This sophisticated quality is finished with a subtle glazing effect, providing each hide with a slightly aged, worn-in look that enriches each of its traditional colorways. The end result is a timeless top grain leather that boasts plenty of character and depth while remaining as suitable for hospitality and commercial use as it is for corporate and residential projects.

With ten standard colors and a one-hide minimum for customer orders, Nugget proves to be one of Jamie Stern's most dependable leather qualities with an endless list of potential applications.
