

Jamie Stern's Pinsteel features a tight pebble texture that beautifully complements its dazzling metallic sheen. Produced on sides (half hides), Pinsteel is embossed with maximum pressure, dwell and heat to ensure that the leather's iconic pattern is consistent and even throughout. After receiving its print, the sides are then finished with a protective semi-aniline metallic topcoat, giving the leather its iconic luster in addition to high traffic performance characteristics. Produced exclusively in our New York finishing plant, Pinsteel is a leather that is sure to impress in both of its luxurious colorways: Steel and Golden Seal.
