LEATHER

Jamie Stern's Python is a truly untamed embossed leather that features a fierce pattern inspired by its namesake reptile. Produced on sides (half hides), Python is embossed with maximum pressure, dwell and heat to ensure that the leather's naturalistic pattern is consistent and even throughout. After this print is applied, the sides are then finished with a protective semi-aniline topcoat before receiving a second hand-tipped layer of pigment. This artisanal finishing process adds a subtle two-tone coloration with a hint of metallic luster that accentuates the embossed pattern and makes for an unforgettable upholstery leather.
