

Veneto is a luxurious pure aniline corrected top grain leather featuring a subtle two-tone finish. It is produced on European raw material averaging 50–55 square feet per hide and acquires its irresistibly smooth texture during its finishing process when waxes and oils are applied to the hide. This process fills in the leather’s natural pores creating a rich, complex leather that will look beautiful from day one, but continue to breathe, age and develop a patina with time and use. As part of Jamie Stern’s Express Collection, the ten standard colorways of Veneto are always in stock and ready to ship within 72 hours.
